

Carol Ann Williams Lecture in Design

Miller Hull: Continuous Exploration

lecture
open to the
public

Thursday, March 13
Ellis Auditorium
9:30 am

Ron Rochon, AIA, LEED BD+C

Ron Rochon, AIA, LEED BD+C, is the managing partner of the Miller Hull Partnership, and is responsible for Quality Control & Assurance, and Construction Administration services for the firm. Ron has 20 years of experience working on a variety of projects that range from community libraries and exhibition halls to university engineering buildings, and is the partner in charge of the recently completed Bullitt Center in Seattle – a 52,000 square foot office building seeking Living Building Challenge Certification. As the senior technical architect, Ron has a role in nearly every project within the office.

Ron has a strong passion for environmental sustainability, performance-based design, energy efficiency, and renewable energy technologies as well as projects that respond to the regional setting and climate. Ron has taken a leadership role in advancing the technical, project delivery capabilities of the firm, including the incorporation of multiple software technologies in the design process. Currently, Ron is leading the on-going effort to make Miller Hull a carbon-neutral business as a component of its compliance with the goals of the AIA 2030 Commitment.
