

Betty Ann Cortelyou

Supports MU Architectural Studies Facility Renovation and Faculty Scholar

Betty Ann Cortelyou at Ribbon Cutting for renovated studio. 2016.

Betty Ann Cortelyou is an alumna from Kansas City and long-time friend of the our MU Department and College. Betty Ann has generously supported our program and was the first to step up with an investment of a named learning place. Her investment supported the renovation of 231 Stanley Hall and its endowment will continue to support this learning place.

Betty Ann was also the first to step up and invest in an endowed Faculty Scholar. “I was fortunate to have had excellent teachers during my school years. These dedicated individuals not only imparted their knowledge but also challenged me to think for myself and to excel in everything I tried. I feel teachers are the most important and often the least appreciated component of our educational system. I am happy to be able to give something back by funding a Faculty Scholar Endowment.” Betty Ann Cortelyou
