# “Can A Design Revolution Meet Humanity’s Greatest Challenge ?”

**BOB BERKEBILE, FAIA**  
Principal, BNIM Architects, Inc.

Bob is a leading authority in the field of sustainable design, is the founding chairman of the American Institute of Architects' National Committee on the Environment and was instrumental in the formation of the US Green Building Council. He is a Principal of BNIM Architects, and Elements Consulting, and brings 40 years of diverse experience to the profession. Bob currently serves on NAFTA's Advisory Board for the Commission on Environmental Cooperation and the boards of The Nature Conservancy, Environmental Building News, The Center for Global Community, Athena and New Earth Organization; he is an advisor to the US Green Building Council board and is a founding member of USGBC's Technical and Scientific Advisory Committee. He is highly regarded by fellow professionals for creating beautiful environments that are restorative and pedagogical and has conducted numerous sustainable design charrettes and workshops for the White House, DOD, DOE, NPS, FEMA and the Canadian Provincial Architects. He has lectured extensively at universities including Harvard, Cambridge, Stanford and Rice and at international conferences including The Earth Summit in Rio and UN & NSF conferences in Scotland, Sweden and Antarctica. Bob utilizes diverse collaborative teams, integrated design and creates new approaches to increase social, economic and environmental vitality.

He has received numerous awards including the US Green Building Council's National Leadership Award in 2005 and he was recognized by the EnvironDesign@Journal as the No. 1 Top 25 Environmental Champions for 2005,

The Fall Meeting of the Architectural Studies Advisory Board
