

Interior Design Program // Student Achievement Data

University of Missouri

Department of Architectural Studies

B.S. HES Architectural Studies, Interior Design emphasis

It typically takes a full-time student taking approximately 15 credits per semester four years to complete the degree program. The department offers a variety of courses in the summer to assist with progress toward degree, but taking summer courses is not necessary in our sequence. Transfer students can expect the degree to take approximately 3 years from the time the student is admitted to the professional program. The following data was collected using departmental and institutional records. The calculations for post-graduation jobs and graduate school acceptance were created using publicly available data on LinkedIn together with faculty knowledge of student placement [where the final dataset included information for 12 out of 14 graduates in academic year (AY) 2019-2020].

Student Attrition and Retention

- 91% of interior design students admitted in the fall of 2019 returned in the fall of 2020, putting attrition at 9%.

Graduation Rates

- Of the interior design students graduating in AY2019-2020, the average amount of time in the professional program was 3 years beyond the first year of foundation courses. 86% of students graduating in AY2019-2020 completed their degree in 4 years.

Acceptance into Graduate Programs:

- 0 out of 14 interior design students who graduated in AY2019-2020 applied to graduate programs, thus we do not have statistics for acceptance into graduate programs for this cohort.

Job Placement Rates:

- Of the interior design students graduating in AY2019-2020, 83% were employed in interior design or a related profession within 9 months of graduation.
